Dean's Letter

1956 – 2009

FACULTY OF ARCHITECTURE

THE FIRST OF THE MIDDLE EAST TECHNICAL UNIVERSITY

Origins and Values:

Middle East Technical University (METU) was established in 1956 as a Faculty of Architecture and Community Planning for the Middle East region, through the collaboration of the Turkish government and the UN. The Faculty of Architecture, originated from this background with a special law which made it possible for the best universal minds from all over the world to meet with Turkish outlook, expertise and practice in the middle of Anatolia (in Ankara).

The new academic attitude of the Faculty of Architecture mainly consisted of critical outlook, new conceptual research for the fundamentals of good design and good planning, a good mix of international students from the region, open juries and open discussions in the classes, social consciousness on a global scale and taking social responsibility on a local scale. This is still the major behaviour pattern in itself for our work at the Faculty. In the early sixties, the Faculty founded the first Department of City and Regional Planning and the first Department of Architectural Conservation in Turkey and in 1979 the Department of Industrial Design.

The University, in order to save the cultural heritage of the campus, carried out excavations on METU campus site in association with our Faculty. The findings dating from 5000-3000BC are now exhibited in the first private museum of Turkey, which is in the Faculty complex.

Middle East Higher Institute of Technology Opening Ceremony
15 November 1956

The Faculty started publishing the Journal of the Faculty of Architecture in 1975. A refereed journal, it was first of its kind and accepts articles in both Turkish and English (www.arch.metu.edu.tr/jfa.htm). It is now in the Arts and Humanities Citation Index as the only Turkish Architecture journal and one of the approximately thirty journals covered by the AHCI.

The documentation efforts of our Faculty's heritage led to the founding of Faculty Archive of Slides.Slides, produced since 1956 and which amounts to around 100.000 vernacular, classical and modern buildings, environments and products, in Turkey and abroad, Historic Buildings Documentation Archives of about 800 historic monuments (some of which do not exist anymore) and Planning Archives starting with some of the originals of the Ankara Plan by Jansen of 1926 and onwards, and a library of thesis work produced since 1962 (all in English) and books from different periods form the Information and Documentation Center of the Faculty. The center is also accepted as being one of the three architectural culture centers in Turkey. All services are open to the public.

Our Research efforts are reorganized around the 'Faculty of Architecture Research, Design and Planning Center' (MATPUM) with Research Units ranging from theoretical research to profesional consultancy services to building science experiments and 'branding'. The Research Center has a separate building on the reseach strip of the campus. (www.matpum.com).

In order to support our research and education efforts we are transforming our workshops into design research laboratories. They are being organized around the areas of, 'virtual design', 'animation', environmental physics' and 'solid modelling'.

The Faculty already enjoys most up-to-date workshops and a printing press which not only prints our journal but has printed a good collection of some 300 books all written by our staff since 1962.

Faculty cooperation with industry, private sector and NGO's are developing in a very healthy manner. Our staff act as public specialists for a significant number of court cases, most of which are very important in terms of public impact. Some of our research activity is about helping the local authorities on environmental issues, on policy making, crisis and hazard management issues and above all in strategic spatial planning.

Our alumni, now around 6000 graduates, are organized within the new Faculty of Architecture Alumni Association (www.omim.org.tr). The Association as an NGO is providing consultancy services for the public and the private sectors.

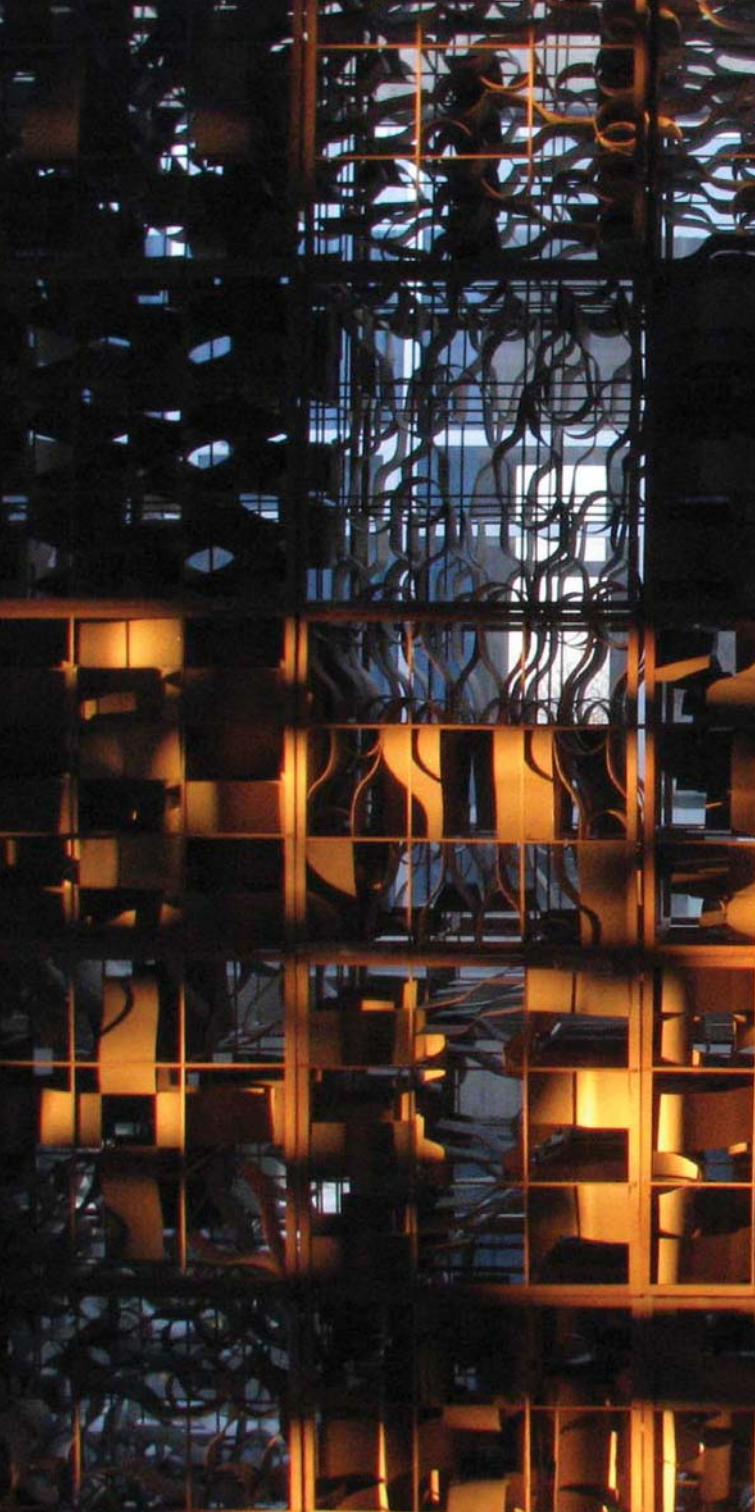

In 2010 we shall be celebrating the fiftieth year of our first graduates, and looking at the way we are now organized, we can say that our next fifty years looks more multi-dimensional, multi-modal and multi-disciplinary in terms of the knowledge we are going to process and in terms of the public, private and non-governmental sectors as well as the national and international bodies we are going to work with.

All this means that we are open and looking forward to meeting and working together with those 'students, teachers and researchers of architecture, planning and design' who would like to share our basic attitudes and who would like to develop new mutual value systems in the related areas of knowledge and practice as well as the regions they are set or meant to influence and would like to ask good questions and try to do the most for good answers and best practice.

Prof. Dr. Haluk Pamir
Dean

DEPARTMENT'S

ARCHITECTURE

The Department of Architecture (the first department established at METU in 1956) offers undergraduate and graduate degrees. The four-year undergraduate study grants the Bachelor's degree in Architecture. Students have the opportunity to follow minor programs in different areas like business administration, building technology, structure, and industrial design. Summer practices carried out each summer throughout the period of study ensure that students are introduced to building and professional practice in the field, on construction sites and in architectural offices. Graduate programs of the department offer the degrees of M.Arch. and Ph.D. in Architecture, M.Sc. and Ph.D. in Building Science, M.Sc. and Ph.D. in Restoration and Preservation of Historical Monuments, M.A. and Ph.D. in History of Architecture and M.Sc. in Computational Design and Fabrication Technologies in Architecture, which is an International Joint Master Degree Program with TUDelft, leading towards a dual diploma. The department also offers two undergraduate minor programs in Conservation and Architectural Culture. The department, which has been employing visiting professors from abroad since its inception, continues its international relations through lectures, student exchange programs and collaborative projects, especially by actively taking place in ERASMUS and ERASMUS-MUNDUS student and staff exchange programs. The department is a member of the European Association of Architectural Education (EAAE) and International Council for Research and Innovation in Building and Construction (CIB).

department of architecture archweb.metu.edu.tr

Among the areas of graduate research are architectural theory and philosophy; theory of design, urban architecture, landscape design and interior design; theory and methods of architectural education; architectural history; restoration and preservation of historical works and environments; energy studies; environmental psychology; building management; structures; acoustics; thermal performance of buildings; and computational design in architecture.

Faculty of Architecture Research Implementation Center for Built Environment and Design (MATPUM), the Faculty Unit for Information and Documentation, the Photogrammetry Unit, the Materials and Chemistry Laboratory for Restoration, the Computer Lab and the Digital Studio provide services to education and research carried out in undergraduate and graduate programs.

CITY and REGIONAL PLANNING

general information

Established in 1961, the Department of City and Regional Planning at METU is the oldest and one of the largest schools of planning in Turkey. With more than 2,000 graduates and about 400 undergraduate and graduate students today, the Department has played a key role not only in planning education but also in the development of urban research in Turkey. The Department offers a 4-year undergraduate degree in City and Regional Planning in the last two years of which, students are oriented to one of four modules according to their areas of interest (Urban Policy, Urban and Regional Economic Development, Urban Design, Environment, Infrastructure and Transport Planning). There are three [Masters Programs](#) carried out by the Department: [Masters Program \(MSc\) in City Planning](#), [Masters Program in Regional Planning](#), and [Masters Program in Urban Design](#). There are also four other Interdisciplinary Masters Programs, and two Phd Programs that the Department of City and Regional Planning carries out jointly with other departments in METU: [Masters and Phd Programs in Urban Policy Planning and Local Governments](#) run jointly with the Department of Political Sciences and Public Administration; [Masters Program in Geodetic and Geographic Information Technologies](#) run jointly with the Departments of Civil Engineering, Computer Engineering, Electrical and Electronic Engineering, Environmental Engineering, and Geological Engineering; [Masters and Phd Programs in Settlement Archeology](#) run jointly with the Department of Architecture and Archeometry Graduate Program; and [Master Program in Earthquake Studies](#) run jointly with the Departments of Civil Engineering, Mine Engineering, and Geological Engineering. The Department of City and Regional Planning also offers a [Ph.D. degree in City and Regional Planning](#). The Department is also a full member of the Association of European Schools of Planning (AESOP) and Association of Turkish Schools of Planning (TUPOB).

city and regional planning crp.metu.edu.tr

In addition to the research units within MATPUM, there are various individual researches carried out by the members of the staff at the department. Research interests of the staff covers a wide range: urban and regional geography, regional planning and policy, urban and regional governance, institutional transformation, planning history, strategic spatial planning, risk analysis and planning for disaster, housing policy, urban history, urban conservation, urban archeology, sustainable development, urban transport, urban design, ecological planning, etc...

INDUSTRIAL DESIGN

Established in 1979, the Department of Industrial Design is one of the leading industrial design departments in Turkey. The Department puts special emphasis on developing strong ties with local industry, cooperating with educational and professional institutions at home and abroad, and supporting the development of an interdisciplinary product development culture at METU. The Department attracts students with the most competitive profile in Turkey.

With its contemporary curriculum offering various elective courses, national and international events, industry visits, policy towards encouraging participation to national and international design competitions and student exchange programs, METU Department of Industrial Design aims to attain a qualified and fulfilling professional education. METU Department of Industrial Design is a member of the International Council of Societies of Industrial Design (ICSID).

id.metu.edu.tr

general information

industrial design

id.metu.edu.tr

Industrial design is a practice mainly concerned with the creation of products that satisfy human needs by integrating qualities such as ease of use, cultural and symbolic values, market appeal and safety, and to develop the concepts embodying such qualities for manufacture. The role of industrial designers is to develop products that we frequently come across in daily life that we choose from among many alternatives and that respect our quality of life and our environment. Creative and innovative design products that designers bring forth contribute to making our lives easier and enriching our experiences. These products may range from electrical household appliances, cooking ware, mobile phones, wristwatches, office furniture systems, lighting units, city furniture to transport vehicles.

The industrial designer contributes to various stages of product development such as defining needs, responding to needs in the form of new products or making changes in existing products and ensuring the recycling of products once they have completed their life cycles. The industrial designer also makes sure that the design process takes into account manufacturers' considerations related to production, cost, market share and target market, as well as cultural values, aesthetic preferences, product safety and ease of use.

METU's Department of Industrial Design uses the facilities and services offered within the Faculty of Architecture's Computing Labs and Documentation Unit. These included computer aided design, image processing, multimedia presentations, desktop publishing, data analysis, printing and reproduction. For model making, the Faculty workshops for wood, metal, plastics, and ceramics are used as well as rapid-prototyping facilities.

Earthquake Studies Program is an interdisciplinary program leading to an M.S. degree in the following three fields of study:

- Earthquake Engineering
- Active Tectonics
- Disaster Management

Among the three fields, the Department of City and Regional Planning contributes mainly to the field of Disaster Management:

Disaster Management M.Sci. Program (with Thesis)

EQS 503 Seismology
 EQS 505 Fundamentals of Earthquake Studies
 CP 562 Urban Risks and Mitigation Planning
 PSY567 Psychological and Social Aspects of Disasters
 EQS 501 Earthquake Disaster Policies CP 502 Disasters Studio
 EQS 590 Seminar
 EQS 500 M.S. Thesis

Elective Courses

BS 535 Earthquake Resistant Building Design in Architecture
 BS 587 Fire Control in Architecture
 CE 735 Engineering Decision and Risk Analysis
 CE 490 Introduction to Earthquake Resistant Design
 CP 562 Urban Risks and Mitigation Planning
 ECON 650 Economics of Uncertainty and Information
 EQS 507 Ionospheric Effects as the precursors of the Earthquake
 GEOE 557 Geographic Information Systems in Earth Sciences GGIT 532
 GIS and RS in Disaster Management
 PHIL 571-572 Eco-Philosophy: Philosophy of Environment I-II PHIL 588
 Environmental Ethics PHIL 585 Ethics and Decision Making
 REST 555 Diagnosis and Treatment of Structural Faults and Material Decay

ACTIVITIES and ORGANIZATIONS

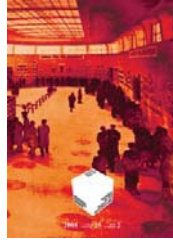

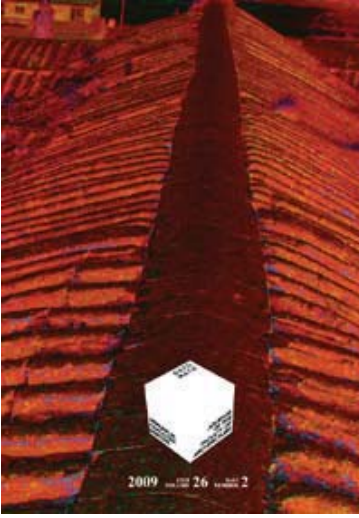

METU Faculty of Architecture Research Implementation Centre for Built Environment and Design (MATPUM) was founded in order to reformulate and reorganize the traditionally very active research efforts of the Faculty in a well-integrated structure. MATPUM is aiming to carry out research, design, planning and implementation activities that pertain to emphasize cutting edge, socially responsible and highly integrated research patterns. This effort will rely on the capacities of our departments of architecture, planning and industrial design, as well as that of the researchers of other departments of METU and the research capacities of the national and international networks as needed.

Research Units

- > Ankara Studies Unit (Elvan ERGUT)
- > Regional Studies Unit (Ayda ERAYDIN)
- > Geographical Information Technologies Unit (Oğuz IŞIK)
- > Design Culture Research Unit for Environments, Buildings and Products (Haluk PAMIR)
- > Strategy Development in Education and Research (Emel AKÖZER)
- > Universal Design (Mualla ERKILIÇ)
- > Turkish Red Crescent Society Research Centre (M. Melih PINARCIOĞLU)
- > Architectural History Studies (Ali Uzay PEKER)
- > Information Technologies in Architecture Research (Ahmet Can BAYKAN)
- > Professional Services in Design and Planning (C. Abdi GÜZER)
- > Movement Patterns and Transportation Unit (Ali TÜREL)
- > Local Community Development Unit (M. Melih PINARCIOĞLU)
- > Highrise Buildings and Settlements Unit (Polat GÜLKAN)

Projects

- > "Hegel-High Efficiency Polygeneration Application /Combi Cycle Application at MATPUM Building-METU", project coordinators: Prof. Dr. Birol Kılış, Assoc. Prof. Dr. Melih Pınarcıoğlu, Arif Künar (ongoing)
- > "Setting Urban and Environmental Standards for Social Housing in Turkey (Through an Understanding of Man-Environment Relations) for Housing Development Administration of Turkey (HDA)", project coordinator: Prof. Dr. Haluk Pamir (ongoing)
- > "Turkish Red Crescent Society RICBED Research Centre (TUKAM)", project coordinator: Prof. Dr. Haluk Pamir (ongoing)
- > "Restoration, Reactivation and Environmental Planning Project for Renda Villa of Turkish Red Crescent Society", project coordinator: Assoc. Prof. Dr. Abdi Güzer (ongoing)
- > "Rural Poverty in Turkey Within the Context of Agricultural Restructuring", project coordinator: Assoc. Prof. Dr. Melih Pınarcıoğlu
- > "The Changing Structure of Urban Poverty in Turkey", project coordinator: Assoc. Prof. Dr. Oğuz Işık
- > "Improvement of Tourism Potential in Divrigi Through Evaluation and Presentation of Natural and Cultural Heritage", project coordinator: Assoc. Prof. Dr. Ali Uzay Peker
- > "Design Centre Magazine and Website Project", project coordinator: Prof. Dr. Haluk Pamir (ongoing)
- > "Determining the Reasons Behind Polarization of Housing Stock Among Cities of Turkey", project coordinator: Prof. Dr. Ali Türel (ongoing)
- > "Observing and Researching the Development of the Service Sector in a Spatial Context, Determining this Sector's Development Tendencies and Potential for the Future, Defining Planning Oriented Development Strategies and Models", project coordinator: Prof. Dr. Ali Türel (ongoing)
- > "A Strategy for Developing a National Qualifications Framework for Architectural Education-Preliminary Project", project coordinator: Assoc. Prof. Dr. Emel Aközer, Assoc. Prof. Dr. Selahattin Önur (ongoing)
- > "Planning and Design in Action for a National Qualifications Framework for Architectural Education and Competence-Based / Learner-Centered Curricula for the Bachelor, Master, Doctorate Cycles", project coordinator: Assoc. Prof. Dr. Emel Aközer (ongoing)
- > "Urban Tourism and Climate Change", project coordinator: Prof. Dr. Ayda Eraydın (ongoing)
- > Sustainable Land Use Policies For Resilient Cities, project coordinators: Prof. Dr. Ayda Eraydın, Prof. Dr. Ali Türel (ongoing)
- > Monitoring the Maintenance / Operation Performance of Constructed Facilities via Embedded Systems - Based Building Information Modeling, project coordinator: Assist. Prof. Dr. Ali Murat Tanyer (ongoing)
- > "Kastamonu University Campus Design and Preparation Architectural Projects", project coordinator: Prof. Dr. Haluk Pamir, Prof. Dr. Vacit İmamoğlu, Assoc. Prof. Dr. Mualla Erkiliç, Assoc. Prof. Dr. Melih Pınarcıoğlu, Inst. Dr. Haluk Zelef (ongoing)
- > "EU FP7, "Action Town- Research and Action for Sustainable Consumption and Production, SCPturKEY", project partner: Technology Development Foundation of Turkey (TTGV), section coordinator: Assoc. Prof. Dr. Melih Pınarcıoğlu (ongoing)

METU JOURNAL OF THE FACULTY OF ARCHITECTURE

METU Journal of the Faculty of Architecture is a biannual refereed publication of the Middle East Technical University. The Journal publishes articles (in English or Turkish) contributing to the development of knowledge in man-environment relations, design and planning, which have theoretical or practical significance.

The METU JFA is indexed/abstracted by the following databases:

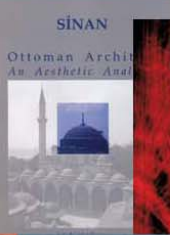

- >AHCI (Arts and Humanities Citation Index), Thomson Reuters
- >Avery Index to Architectural Periodicals
- >The British Architectural Library (The RIBA Index)
- >DAAI (Design and Applied Arts Index) (CSA)
- >TÜBİTAK ULAKBİM-SBVT (Social Sciences Database) and
- >TÜBİTAK ULAKBİM-MTBVT (Engineering and Natural Sciences Database)

METU Department of Architecture organizes for its students in the 1st year a construction summer practice as a requirement of the "Arch 190 Summer Practice in Construction and Surveying". This summer practice entails each time the construction of a small-scale structure in a rural settlement. Arch 190 Summer Practice has a multidimensional function: It gets the students of architecture acquainted with construction activity and materials; it gets the students have an acquaintance with the rural regions where a great percentage of Turkey's population live and contributes to the community in the form of a built facility for public use or through a community research.

In the 9th National Awards for Architecture, organized by The Turkish Chamber of Architects (Section of UIA in Turkey) in 2004, "Summer Construction Practice Program (1958-2003)" of METU Department of Architecture was awarded a special prize in the category of "Contribution to Architecture".

Aiming to provide a ground of knowledge and discussion about current research on different study fields of architectural history, METU Graduate Program in Architectural History organizes a lecture series called 'METU talks Architectural History'. Starting from 2004, a total of 26 lectures were given by architectural historians and academicians in related disciplines of architecture, history, art history and archaeology, presenting research in different periods and geographical areas of architectural culture and built environment.

November

TURKISH CONGRESS OF AESTHETICS

SANART . Turkish congress of aesthetics

"Aesthetics in Turkey"

November 22-24 , 2006

There have been significant advances in art and aesthetics in Turkey. However, discussions, criticisms and views could not be brought to a common ground; the assets could not be made thoroughly accessible for all potential contributors. Turkish Congress of Aesthetics aims to discover these assets, to constitute a platform for communication among artists and scholars, and hence to contribute to our esthetical knowledge.

Turkish Congress of Aesthetics had also been an occasion to prepare philosophers, researchers and artists from Turkey and abroad for the XVII. International Congress of Aesthetics, that was held in the Middle East Technical University, Ankara, 9-13 July, 2007.

Organized by SANART, METU Department of Philosophy, METU Faculty of Architecture, and METU Department of Music and Fine Arts with the support of the METU Presidence Office.

SESSIONS

Aesthetic Sensibility and Practices Art; Photography; Music; Literature; Theatre; Cinema; Architecture and Urban Design; Everyday Life and Aesthetics; Industry; Media; Fashion; Aesthetics and Science...

Aesthetics and Discourse Historical Perspectives; History of Aesthetics in Turkey; Teaching; Aesthetics and Aesthetical Consciousness; Philosophy and Art; Ethics and Aesthetics; Cultural Criticism; Culture and Politics; Local and Global; The Classic; Modern and Post-modern...

XVIIth INTERNATIONAL CONGRESS OF AESTHETICS

"Aesthetics Bridging Cultures"

9-13 July 2007

The theme of the XVIIth International Congress of Aesthetics will be 'Aesthetics Bridging Cultures'. The Congress is organised by the Sanart Association of Aesthetics and Visual Culture, in cooperation and with the support of the Middle East Technical University and the Faculty of Architecture, under the auspices of the International Association of Aesthetics.

TMMOB MİMARLAR ODASI

Architecture and Education General Assembly IV was organized in 7-9 November 2007 in Middle East Technical University, Faculty of Architecture. Work groups of the assembly have presented their works, based on the products of meetings conducted in 40th term of the assembly and have provided a basis for the works to be done in the 5th assembly which will be organized in 2009. List of workshops and activities organized in the assembly can be found below.

Workshops:

Undergraduate and Graduate Education of Architecture
 Database of Architectural Education
 Developing Design Processes and Technologies
 Change as a Comprehensive and Participatory
 Design/Research Project
 Internship in Architectural Education
 Professional Practice and Committee of Acceptance to
 Profession
 Committee of Accreditation in Architectural Education (MIAK)
 Continuous Professional Development Center (SMGM)
 Quality Guarantee in Architectural Services
 Application of Profession in The Course Of EU-Gats
 Public Architecture Services
 Society and Architecture

Activities Organized In AEGA IV

Architecture Students Forum
 AEGA IV Architecture Students Poster Competition
 Workshop of Architecture Education and Cultural Research

PRESERVING PLACES: MANAGING MASS TOURISM URBAN CONSERVATION and QUALITY OF LIFE IN HISTORIC CENTRES

Preserving Places: Managing Mass Tourism, Urban Conservation and Quality of Life in Historic Centres

5-6 December 2008, METU Culture and Convention Centre

Tourism in historic cities is continuously increasing following the global trends in the tourist industry. Tourism has played a certain role in promoting public awareness towards the historic built environments and provided the historical centres with the necessary resources for conservation. However, the negative impacts of mass tourism on the conservation of cultural heritage, and the impoverishment of historic places in terms of their civic values is evident. In this workshop, the risks that historic centres are subjected to will be investigated on an international comparative and interdisciplinary basis, in relation with urban, conservation and tourist policies. The workshop will be the kick off event of an international project supported by the EU Culture Programme (2007-2013). In addition to theoretical issues on the urban conservation policies, the management of mass tourism and betterment of the inhabitants' life quality in the historic centres, the participants will present case studies in order to increase awareness on the best practices and propose guidelines for a socially and environmentally sustainable enhancement of these places.

The presentations will be either in English or in Turkish and there will be simultaneous translations in both languages.

WORKSHOP PROGRAM

FIRST DAY

9:00 - 10:00 OPENING SESSION

Prof. Dr. Ahmet Acar, President of the Middle East Technical University

Heleni Porfyriou, Consiglio Nazionale delle Ricerche - CNR, Institute for the Conservation and Promotion of Cultural Heritage - ICVBC, Project Coordinator

Cânã Bîlsel, METU Department of Architecture, Project Coordinator at METU

10:20 - 12:20 SESSION 1

Moderator: Selvi Aktüre, METU Department of City and Regional Planning

Alfredo Cocci, Università di Roma "La Sapienza", Department of European and Intercultural Studies, Tourism and Citizens' Rights

Armando Montanari, Università di Roma "La Sapienza", Department of European and Intercultural Studies, Preserving Places. The Case of Rome: Analysis and Perspectives

Heleni Porfyriou, Consiglio Nazionale delle Ricerche - CNR, Institute for the Conservation and Promotion of Cultural Heritage - ICVBC, Urban Policies in the Historic Centre of Rome and their Impact in Increasing Mass Tourism: Monitoring the Trevi and Pantheon Case-Study Area

Emre Madran, METU Department of Architecture, Graduate Programme in Restoration The Significance of the Citizen in Conservation: The Case of Antalya Kaleici

Ayşıl Yavuz, METU Department of Architecture, Graduate Programme in Restoration Tourism and Authenticity

14:00 - 16:00 SESSION 2

Moderator: Emre Madran, METU Department of Architecture, Graduate Programme in Restoration

Selvi Özyılmaz, Anlı Akbaş, METU Department of City and Regional Planning HAMAM: Urban Conservation, Enhancement of Life Quality and Public Participation in the Historic Centres of Ankara

António D'Ávila, Uinon University, Department of Architectural Arts, Centre Monitoring Children's Vision of Mass Tourism in Historic Centres through the Use of Photography. Presentation of a Case Study's Working method

Nida Nayo, METU Department of Architecture, Graduate Programme in Restoration Mass Tourism in Coastal Areas: Transformation of Coastal and Historic Environments Through Development Plans in Turkey

Muhtetin Dalgıç, Mayor of Alayunt, Urban Conservation and Tourism in Alayunt from the Perspective of the Local Government

Nimet Özgenel, Head of the Chamber of Architects Ankara Branch, METU Department of Architecture, Graduate Programme in Restoration Preservation of the Historical Heritage and Tourism in Alayunt

16:20 - 18:20 SESSION 3

Moderator: Jale Erzin, METU Department of Architecture, Graduate Programme in Architectural History

Mehmet Yavuz, Mayor of Beypazarı, Beypazarı Anew: Tourism in the Revitalization of the Historic Town

Giuliana Barilla, Università di Messina, Dipartimento per l'Ingegneria e l'Architettura, Consiglio Nazionale delle Ricerche - CNR, Institute for the Conservation and Promotion of Cultural Heritage - ICVBC, Roma, From Colour Planning to Comprehensive Re-qualification Proposals: a Sicilian Experience

**Managing Mass Tourism, Urban Conservation and
Quality of Life in Historic Centres**

5-6 December 2008, METU Cultural and Convention Centre

Tourism in historic cities is continuously increasing following the global trends in the tourist industry. Tourism has played a certain role in promoting public awareness towards the historic built environments and provided the historical centres with the necessary resources for conservation. However, the negative impacts of mass tourism on the conservation of cultural heritage, and the impoverishment of historic places in terms of their civic values is evident. The planning and conservation policies in many historic cities continue to be fragmented and to ignore environmental and social issues as a result of undue focus on the short term economic advantages of tourism. In this workshop, the risks that historic centres are subjected to have been investigated on an international comparative and interdisciplinary basis, in relation with urban, conservation and tourist policies. The workshop is the kick off event of an international project supported by the EU Culture Programme (2007-2013).

THE ASWA VII, ARCHAEozoology FOR THE SOUTHWEST ASIA INTERNATIONAL MEETING, 1st – 4th of June 2004

The Archaeozoology of Southwest Asia and Adjacent Areas (ASWA [AA]) Working Group was formed during the 1990 ICAZ International Conference in Washington D.C. It aims to promote communication between researchers working on faunal remains from sites in western Asia and adjacent areas. One of its practices for meeting this aim is to organize regular biennial international conferences.

The ASWA VII Archaeozoology for the Southwest Asia International Meeting was held at Ankara, 1st – 4th of June 2004 at the premises of METU. It lasted for four days, the first three devoted to presentations of papers and the last to a field trip at Çatalhöyük. Posters submitted to the conference were in exhibition for the three days of the event. The first day included speeches on animal bone remains recovered from excavations in Turkey. The second day was given to papers on methodology of archaeozoology and the third day to papers on materials recovered from excavations in other countries in the region.

BLACK SEA STUDIES SYMPOSIUM, 16th -17th of April, 2004

Archaeology is a field of study which prospers through communication and interdisciplinary work. However, many archaeological study in Turkey remains as thesis study and reaches only to a limited circle without getting a chance to be published, although the output of studies and results of research in any field should be shared with other scholars as well as anyone interested in the field. The Graduate Program in Settlement Archaeology of the Middle East Technical University in Ankara organized a graduate symposium entitled “Black Sea Studies Symposium” in April 2004 with this ideal. During this symposium, numerous universities from all over Turkey have contributed and a wonderful academic environment and cooperation developed which demonstrated the necessity of such platforms for young scholars.

MARMARA STUDIES SYMPOSIUM, 27th of April, 2007

The second of our mini graduate symposium series was held on April 27th, 2007 at the Middle East Technical University. Studies on the archaeology, history, art history and geography of the Marmara Region were presented at this symposium which also provided a great opportunity for us to publish the second of the Settlement Archaeology Series. The symposium was not only incredibly diverse in terms of subject matter, but also the papers extended over a very long period of time.

STUDIES IN SOUTHEASTERN ANATOLIA GRADUATE SYMPOSIUM, 30th of April-1st of May, 2009

As the Graduate Program in Settlement Archaeology of the Middle East Technical University, our Graduate Symposium designed in a regional framework began in 2004 with Black Sea Studies and continued in 2007 with Marmara Studies. This year, the symposium aimed at bringing together young scientists working on topics relating to the Southeastern part of Anatolia in the fields of archaeology, history, architectural history, art history, anthropology and other supporting fields. The objective of the symposium has not only been to create an environment where graduate students freely share their research but also to provide an opportunity for them to meet other fellow graduate students in their field and actively contribute to academic life.

SPACES / TIMES / PEOPLES: PATRONAGE AND ARCHITECTURAL HISTORY

December 3-4, 2009, METU Faculty of Architecture, Kubbealtı Hall

MEKANLAR / ZAMANLAR / İNSANLAR: HAMİLİK VE MİMARLIK TARİHİ

3-4 Aralık 2009, ODTÜ Mimarlık Fakültesi Kubbealtı Salonu

Theme: The sixth symposium which will meet on December 3-4, 2009 will focus on the themes of "Patronage and Architectural History", "Design" and "Patronage" have held a significant place in researches on arts, architecture, and architectural history as those on other fields of social sciences studied through a contextual basis on space, spatial perception, space production and usage; with reference to artist - architect and patron relationship; and studies considering the concepts of power, representation, imagery, memory, gender, and identity. The symposium aims to bring together current researches on spaces, times, and peoples, and discuss the consequent knowledge produced in architectural history, particularly framed by the relation between architecture and patronage.

Tema: 3-4 Aralık 2009 tarihinde düzenlenecek olan altıncı toplantı, "Hamilik ve Mimarlık Tarihi" başlığı altında gerçekleştirilecektir. "Tasarım" ve "Himaye" sanat, mimarlık, mimarlık tarihi ve sosyal bilimlerin diğer alanlarında mekansal algı, mekân üretimi ve kullanımı çerçevesinden sanatçı/mimar ile hami ilişkisi bağlamında erk, temsil, imge, bellek, cinsiyet ya da kimlik gibi kavramlar üzerinden çalışan önemli araştırma konularıdır. Bu toplantıda mekanları, zamanları ve insanları mimarlık hamilik ilişkisi çerçevesinde irdelleyen güncel araştırmaların sunulması ve bu çalışmaların ürettiği yeni bilginin tartışılması hedeflenmektedir.

Eligibility: The symposium is open to graduate students and to young researchers who received their doctoral degrees since 2006.

Language of The Symposium: Turkish and English

Deadline: The deadline for sending paper proposals to the organizing committee is October 12, 2009.

Format: Those interested should send the title of the proposed paper with the 300-word abstract and 5 keywords; and on a separate sheet, the participant's name, short biography, mail address, e-mail, phone and fax numbers. The information sheet should include the title of the paper.

Conference Fee: The conference fee is 85 TL.

Organization Committee: Baharak Tabibi, Ceren Katipoğlu, Ergi Yavuz, Meltem Özkan.

Assistants: Çağla Caner Yüksel, Murat Kenan Şentürk, Övgü Pelen, Sibel Acar Yılmaztürk, Zeynep Ceylanlı.

Katılımcılar: Sempozyum yüksek lisans veya doktora çalışmalarını sürdüren ve doktora son üç yıl içinde bitirmiş olan araştırmacılara açıktır.

Sempozyum Dili: Türkçe ve İngilizce'dir.

Son Katılım Tarihi: Katılımcıların bildiri özetlerini en geç 12 Ekim 2009 tarihine kadar düzenleme kuruluına göndermeleri gerekmektedir.

Bilgi: Bildiri başlığı, 300 kelimelik özetin ve 5 anahtar kelimenin olduğu sayfada katılımcının kimliğine dair bilgi yer almamalıdır. Katılımcının ismi, kısa özgeçmiş, posta e-posta adresleri ile telefon ve fax numaraları, bildiri başlığının da yer aldığı ayrı bir sayfada gönderilmelidir.

Katılım Ücreti: Katılım ücreti 85 TL'dir.

Düzenleme Kurulu: Baharak Tabibi, Ceren Katipoğlu, Ergi Yavuz, Meltem Özkan.

Yardımcılar: Çağla Caner Yüksel, Murat Kenan Şentürk, Övgü Pelen, Sibel Acar Yılmaztürk, Zeynep Ceylanlı.

>“Spaces / Times / Peoples: Patronage and Architectural History” 2009

The Graduate Program in Architectural History in Department of Architecture at Middle East Technical University organizes a series of graduate symposiums, open to graduate students and researchers who have recently completed their Ph.D. studies. The symposium series, which began with the Spaces / Times / Peoples of the Ottoman, Republic, and the Ancient Age continued with the thematic meetings on Gender - Sexuality, and Identity - Sense of Belonging. The sixth symposium which met on December 3-4, 2009 focused on the themes of **“Spaces / Times / Peoples: Patronage and Architectural History”**. “Design” and “Patronage” have held a significant place in researches on arts, architecture and architectural history as those on other fields of social sciences studied through a contextual basis on space, spatial perception, space production and usage; with reference to artist - architect and patron relationship; and studies considering the concepts of power, representation, imagery, memory, gender, and identity. The symposium aimed to bring together current researches on spaces, times, and peoples, and discussed the consequent knowledge produced in architectural history, particularly framed by the relation between architecture and patronage.

Erasmus Program for higher education is one of the facilities of the Socrates Program which aims:

- to strengthen the European dimension of education at all levels
- to improve the knowledge of European languages
- to promote cooperation and mobility throughout education
- to encourage innovation in education
- to promote equal opportunities in all sectors of education

> Erasmus gives students the opportunity to study for a period of 3-12 months at a university or higher education institution in another participating country. ECTS (European Credit Transfer System) facilitates academic recognition of periods of study in partner institutions.

> Erasmus provides support for teachers giving courses, generally short courses, as part of the official curriculum of a partner university in another European country.

> Erasmus supports Intensive Programs (IP) in the form of intensive courses that provide an additional option for teachers and students, and offer them an opportunity to gain a European perspective.

> Erasmus provides support for Thematic Networks (TN) around a subject area or a specific topic as a platform for analysis and discussion

Middle East Technical University joined Erasmus Program in 2004. Since then Faculty of Architecture signed bilateral agreements for student and academic staff exchange with a range of European higher education institutions. 155 students and 28 academic staff members have visited other countries as part of the Erasmus program between 2004 and 2008.

The Faculty also intensely involved in IP and TN programs with a number of these institutions and organized various workshops and studio sessions at home and abroad.

List of Erasmus partner institutions:

Aalborg University, Denmark / Bauhaus Universitat Weimar, Germany / Budapest University of Technology and Economics, Hungary / Delft University of Technology, Holland / Ecole National Supérieure d'Architecture de Paris Belleville, France / Freie Universität Berlin, Germany / HafenCity Universität Hamburg, Germany / Hogeschool West-Vlaanderen, Belgium / Katholieke Universiteit Leuven, Belgium / Koblenz Landau University, Germany / Liverpool John Moores University, United Kingdom / Politecnico di Bari, Italy / Politecnico di Milano, Italy / Politecnico di Torino, Italy / Technische Universität Darmstadt, Germany / Technische Universität Dortmund, Germany / Universidad Autonoma De Madrid, Spain / Universidad Politecnica De Valencia, Spain / Universidade do Minho, Portugal / Università di Bologna, Italy / Universität Bremen, Germany / Università degli Studi Roma Tre, Italy / Universiteit van Amsterdam, Holland / University of Leeds, United Kingdom / University of Malta, Malta / University of Primorska, Slovenia / University of Reading, United Kingdom / University of Salford, United Kingdom / University of Westminster, United Kingdom / Uniwersytet Im. Adama Mickiewicza w Poznaniu, Poland / University of Manchester, United Kingdom / TU Wien-Technical University of Vienna, Austria / Roma-Tre University, Italy / Milano-Bicocca University, Italy / University of Art and Design Helsinki, Finland / Universität Kassel, Germany / Hochschule für Künste Bremen, Germany / Fachhochschule Coburg, Germany / Technological Educational Institution of Athens, Greece / Technische Universiteit Eindhoven, Holland / Universidad de Valladolid, Spain

INTENSIVE PROGRAMS (IPs)

The intensive programs, European Union supported initiatives in the framework of the Socrates schemes, aim to promote exchange programs between universities. The Faculty of Architecture has recently involved in three IPs, namely Borderlines in Urban Space and Planning, BRANCABIKA, Spatial Development Planning. BRANCABIKA was carried in partnership with the Department of Architecture, while the partner of the other IPs was the Department of City and Regional Planning.

The Department of City and Regional Planning is one of the partners of the Erasmus-Socrates intensive program (IP) Spatial Development Planning. This program is carried out with the partnerships of University of Milano - Bicocca/Department of Sociology and Social Research (Italy), Middle East Technical University/Department of City and Regional Planning (Turkey), University of Newcastle upon Tyne/School of Planning, Architecture and Landscape (United Kingdom), University of Sciences and Technologies of Lille/Faculty of Economics and Social Science (France), Catholic University of Leuven/Department of Architecture (Belgium), Utrecht University/Department of Human Geography and Urban and Regional Planning (Holland), University of Aveiro/Department of Social, Legal and Political Sciences (Portugal), Mediterranean University of the City of Reggio Calabria/Department of City, Landscape and Territory Planning (Italy), Harokopio University/Department of Geography (Greece), University of the Basque Country University of the Basque Country/Department of Applied Economics (Spain), Royal Institute of Technology/Department of City and Regional Planning (Sweden), Helsinki University of Technology/ Centre for Urban and Regional Studies (Finland), University of Naples Federico II/ Department of Social Sciences (Italy), Sapienza University of Rome/Department of Territorial and Urban Planning (Italy), Slovak University of Technology/ Department of Architecture (Slovak Republic), Vienna University of Economics and Business Administration/Department of of Urban and Regional Development (Austria).

The main purpose of the IP on Spatial Development Planning is to provide students with a learning experience on different planning contexts, to become familiar with different instruments and approaches, and to confront the problems and issues at hand. In particular, this learning experience is focused on achieving a critical understanding of:

- a) different urban redevelopment patterns and models;
- b) methodologies to evaluate the economic and social impact of these redevelopment projects at various scales;
- c) conceptual tools for the analysis of governance dynamics.

Within this IP, two projects were prepared in 2007, related to two transformation areas in Milan. Three students from the Department of City and Regional Planning participated in the IP workshop together with the coordinator Dr. Bahar Gedikli. Students worked in collaboration with other participant students; while the coordinators assumed the teaching duty. The first project involved the BICOCCA area, where the University of Milano-Bicocca is also located. The University have become a central part of a large redevelopment project informed by the "knowledge-city model", where higher-education, R&D and cultural functions are mixed with advanced business services and high-quality residential units. The analysis of this project enables a critical appraisal of the development patterns set in motion by policies promoting the Knowledge-Based Society and their impact in the metropolitan area.

The second project is on PARCO NORD, a 600 hectare green area along the northern border of the city of Milan and including portions of five minor municipalities of the metropolitan area. The park is managed by a Consortium of the municipalities involved and constitutes a successful example of collaboration at the inter-municipality level; while connecting adjacent municipalities this park plays a large role in providing opportunities for socially innovative initiatives which promote an inclusive and active fruition of green spaces (for example, urban vegetable gardens, well-equipped paths and facilities for educational purposes).

In 2008, in addition to the two transformation areas studied in 2007, Manifattura Tabacchi was chosen as the third project area; the planning of a cultural district. Three students from our Department participated in the project. Next IP workshop is going to be held in Stockholm in 2010.

Project coordinators: Assoc.Prof. Dr. Bahar Gedikli

UES'08, organised by Middle East Technical University (METU) and the University of Adelaide as a collaborative teaching exercise in two graduate courses, and held in Ankara between 30 June and 14 July 2008, focused on the connection between place and difference. Its main aims were to raise students' sensitivity to spatial and social difference in their experience and design of constructed environments, and to explore new modes of design education. UES'08 brought 7 city planning, and 13 architecture students from METU together with 22 architecture and landscape architecture students from the University of Adelaide. Taking a holistic approach, it focused on urban matters in the Hacı Bayram Area (HBA), the historical heart of Ankara, as an exercise to explore innovative design strategies in architecture, landscape architecture and urban design for the revitalization of the site. Working as international and interdisciplinary teams of 5, 6 and 7 students produced 7 alternative projects with a number of creative solutions for the problems of the HBA. Each project team developed a master plan for the whole project site and detailed design solutions for a specific part of the HBA.

Welcoming the visitors across the Dean's Office entrance, the space was transformed into an exhibition gallery by the initiative of OMİM; (The Alumni Association of the Faculty of Architecture). The exhibition system was designed and implemented by the faculty members Alper Semih Alkan, Dr. Nihal Bursa and Dr. Haluk Zelef. The gallery was opened on the Alumni Day, 25th June 2005, with the collection of the awarded competition entries by the students of architecture. The Gallery is directed by Dr. Haluk Zelef.

EXHIBITIONS ORGANIZED IN THE FACULTY OF ARCHITECTURE EXHIBITION HALL SINCE 2006:

2010 May- "Parallel Studio with University of Westminster"

2010 April- "Faruk Malhan: Designer's Geography"

2010 March- "Atatürk Orman Çiftliği"

2010 March- "Gökhan Avcıoğlu (GAD)"

2009 December- "Architecture and Education General Assembly V, 2008 Graduation Projects Exhibition"

2009 December- "Inspiring Glassware Collection for Art Craft Glass Company"

2009 November- "Cafer Bozkurt Architecture"

2009 November- "1972 World of Industrial Design Exhibition"

2009 May- "Auböck + Kárász Architects and Landscape Architects / Vienna - "Moving Shapes- Dynamic Places" New Landscape Architecture from Austria"

2009 April 1-8- "Exhibition of 3 Dimensional Objects" (In Honour of 30th Year of Department of Industrial Design) "Humans/Animals Made of Wire" Department of Industrial Design

2009 March- "Archiprix 2008 Architecture Students Graduation Projects, National Competition"

2008 October- "Semra Ener (CP'68) Ceramics exhibition .OMİM"

2008 April- "Bolts, Pins and Other Things"

Mehmet Asatekin photography exhibition

2007 June- "Stairs" Gül Ezen photography exhibition

2007 December- "Kemal Aran / Designer- Architect- Competitor- Pedagogue- Writer"

2007 November- "Dutch Architecture: The New Movement in the Netherlands 1924-1936" Exhibition organized by TU Delft

2007 March- "Sound on the Ground: What Ulus İşhanı Tells" Exhibition of the study conducted by Ali Cengizkan and Didem Kılıçkiran, in the Graduate studies studio (Arch 713) of the METU Department of Architecture.

2006 December- "Publications of the Faculty of Architecture"

2006 September- " 20th Century Architecture in Turkey: Houses" Exhibition of the studies conducted by Haluk Zelef, Nihal Bursa, Alper Alkan in the Graphic Communication Course (Arch 104) as a part of the 9th International DoCoMoMo Conference

2006 July- "Hammam, Aspects and Multidisciplinary Methods of analyses for the Mediterranean Region, (FP6, Hammam 517704) "Opened during the Ankara workshop of the EU project (2-13 July 2006), METU Project Coordinator: E.N. Caner-Saltık

2006 June- "Inhabiting the Age: Temelli/Past, Now, Future" - "The Ideal Republican Village: Temelli (Samutlu) örnek village" Exhibition of the study conducted by Ali Cengizkan and Didem Kılıçkiran in the Graduate studies studio (Arch 714) of the METU Department of Architecture.

METU Faculty of Architecture Information and Documentation Center aims to preserve and share materials of education and research produced in the disciplines of architecture, city and regional planning and industrial design. Established in the early 1960s, the Center has about 100000 slides, 1200 graduate theses and dissertations, the publications of the Faculty members, other works and projects produced in studios and courses, and selected reference books and journals. In coping with recent developments concerning architectural archives, projects have been initialized to digitalize the collection for a world-wide online accessibility and also to improve the infrastructural renovations for the betterment of physical facilities. The following sub-units have also been established for archiving special documentary materials:

- > Maps and Plans Documentation Unit
- > Cultural Properties Archive
- > MATPUM Ankara Studies Unit Archive and Ankara Institute Foundation Library
- > Gönül Tankut Ankara Library
- > Department of Industrial Design Archive

Our alumni, now around 6000 graduates, are organized within the new Faculty of Architecture Alumni Association. The Association as an NGO is providing consultancy services for the public and the private sectors. Alumni Association is also financially and professionally supporting the renewal of the building and the public activities taking place in the faculty. We are kindly inviting our graduates to join the association in order to actively participate in the forthcoming activities.
