Rock Art Recording: Community involvement with Heritage

15.01.2016 | 12:30

@ Faculty of Architecture
Kubbealti

Didier Bouakaze-Khan

Assist. Prof. Dr., Settlement Archaeology, METU

Recent statistics show that volunteering can be a powerful resource for the heritage sector. Community involvement can provide a better understanding of rock art endowments as well as contributing to build capacities, especially in remote locations. The support in the growth of public participation in heritage-related activities is increasing, but is there a general strategy for volunteer recruitment, training and fieldwork? And what should be the balance between volunteer and specialist responsibilities in rock art recording and sites management?
